# Candlestick Basics

**1**

## Momentum candle

This is your entry candle. The candle shows strong momentum in trade direction.

**2**

## Indecision candle

The candle shows weakness. Bulls and bears equal. We don't have any clear direction.

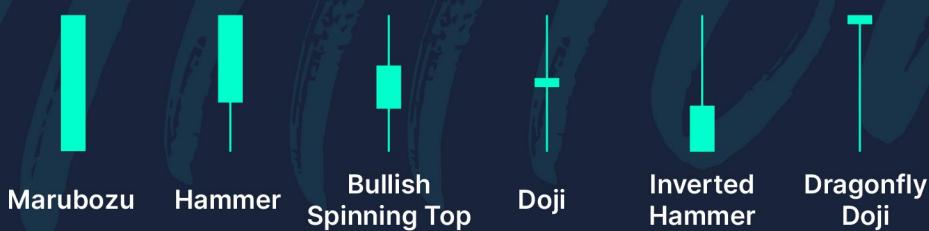

**3**

## Wick rejection candle

Candle fails to break a certain level. Price is likely to reverse or continue.

Retracements for Entries.  
Projections for Exits.

# 4 Market Phases

## RETRACEMENTS AND PROJECTIONS

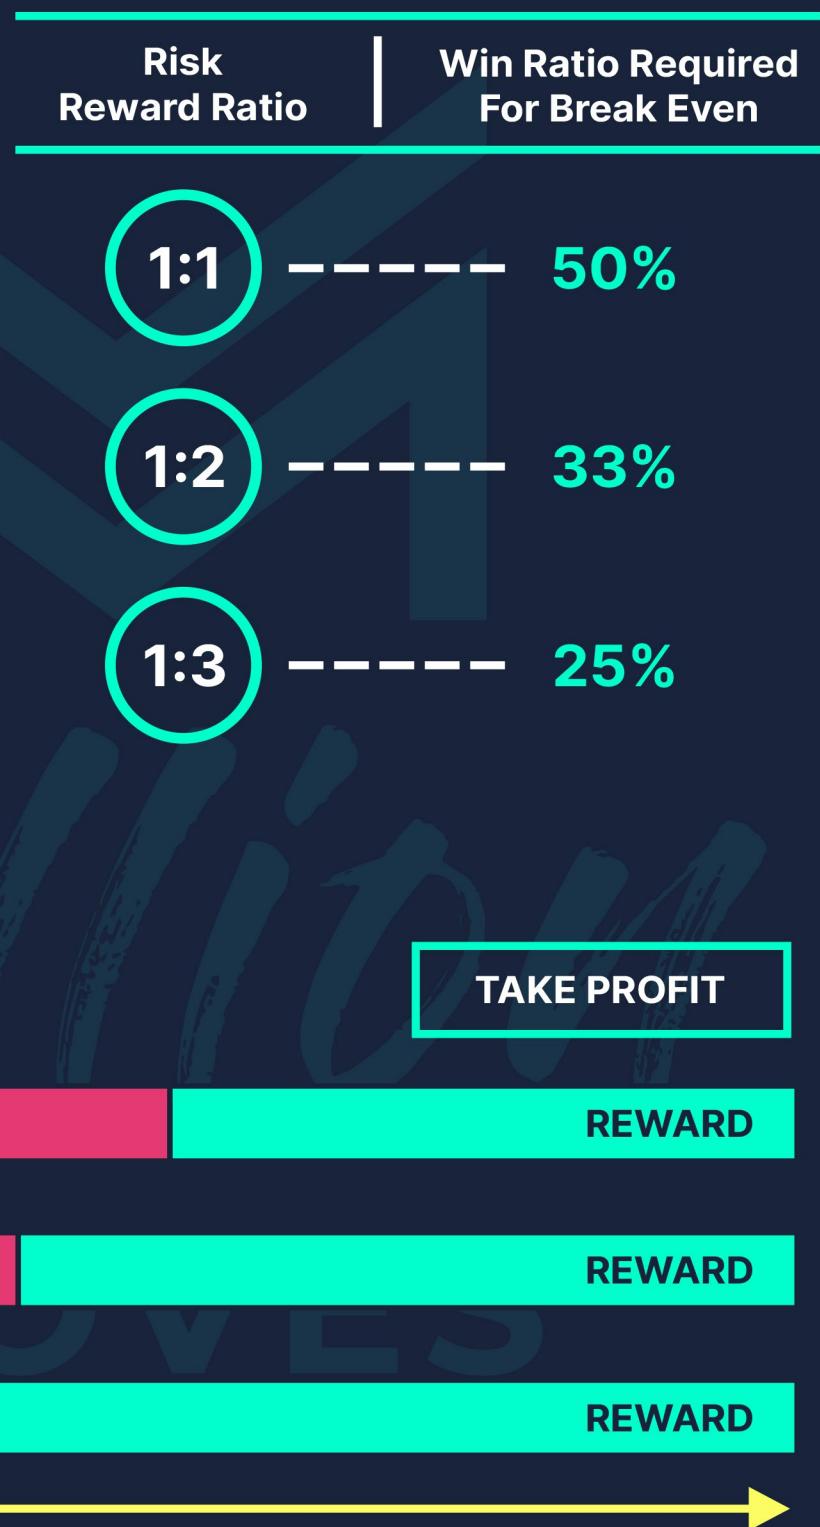

# Risk Reward Ratio

## CALCULATE YOUR TRADE SIZE

Set a **fixed win ratio** for your trades and stick to it. You can be **profitable** even with a negative win rate.

Most traders use a risk reward ratio between **1:5** and **1:2**.

- Don't exit trades too early
- Always set your stoploss
- Trail stoploss when in profits

# Forex Pairs

## CORRELATIONS CHEAT SHEET

It's good to know which pairs are likely to move together. **Inversely pairs can be used for hedge positions.**
